

Ultra Cross

.. ultralight reserve for emergency cases.

Light, lighter, Ultra Cross! With only 790g Ultra Cross 75 is the lightest reserve among our popular reserve series and it is certified according to LTF and EN.

Special material - extremely light, yet high-tensile - is used to manufacture this reserve. Resulting from a unique design concept, its pendulum stability and its low sink rate are absolutely remarkable.

Simple packing and extremely fast deployment speed make Ultra Cross more save than almost any other rescue system. Now also available in size 210 - as reserve for tandem paragliding!
